"Our experience with **EES-SIYAKHA** has been one of a high degree of professionalism. Preparation was extensive and materials used were straightforward and applicable to our purpose. They use the basis and method of Best Human Resources practices suitable for an organisation. In consecutive sessions, the contents of the workshop as well as the outcomes were commended by both management and employer organisations alike. We certainly recommend the services of **EES-SIYAKHA** to any organisation that has to deal with similar issues as outlined above without hesitation". *Anton Scheppel, Manager: Labour Relations, North West University*
